

# Insightful, impactful, Task Analysis diagrams

## Update, maintain and communicate critical safety tasks with your team

### Make sense of your environment

Build your Task Analysis Diagram in minutes. It's flexible and impactful to makes even the most complex tasks easy to construct and understand.

### More than just a diagram

Understand each step in your process. Use the table view to add information, requirements, customisable drop down lists, due dates and more.

### Simple, Customisable, Collaborative

Build and share diagrams that effectively communicate what you want. Drag and drop. No technical skills required to build. Share your work to remote teams via a live link.

### Divide and Conquer

Split your screen to view new tasks and their hierarchy, while adding details to the table. Access is inclusive of all the features, functionality, and updates so you don't have to pay for separate add-ons.
